“ Every time that we came to the family reunion, you were always there with open arms. You would tell us "come here baby" making us feel at home. Even though we never met our grandmother, it never seemed so bad since you were there watching over us in the physical while our grandma was watching over us in heaven. We would like to thank you for always being there and providing us with the care that a grandmother does. Now that you are not here in the physical, we know that there are two angels watching over us.

Love always,
Raven and Randi

“ *Monica and Valerie,*

Your mother will live on in all of us. She gave so much of herself, and taught us that "Family" is the most important gift we will ever receive in this life. I plan to model her priority. I have, and will always consider Auntie Mildred's contentment and loving nature, her greatest beauty, and strive for that type of gorgeous character. Your mother's dedication to family set a standard we will only hope to reach someday. I see her smiling face every time I close my eyes. I plan regular visits with Auntie, through a lifetime of countless memories, and hilarious conversations, with her, about "different things." Her gift to us will never leave or be taken away, "Praise God." You guys are so much like "Auntie," she hasn't really left, she continues on, in both of you, and your children. Always remember her laughter in your hearts, and fight sadness. Embrace her contentment, and love for all of you, each day. Anytime you want to talk or feel the need to lean on someone, please call me. I Love You so-o-o much, and will be here whenever you need me.
